Revenue collection performance

Actual vs target collection rate trend

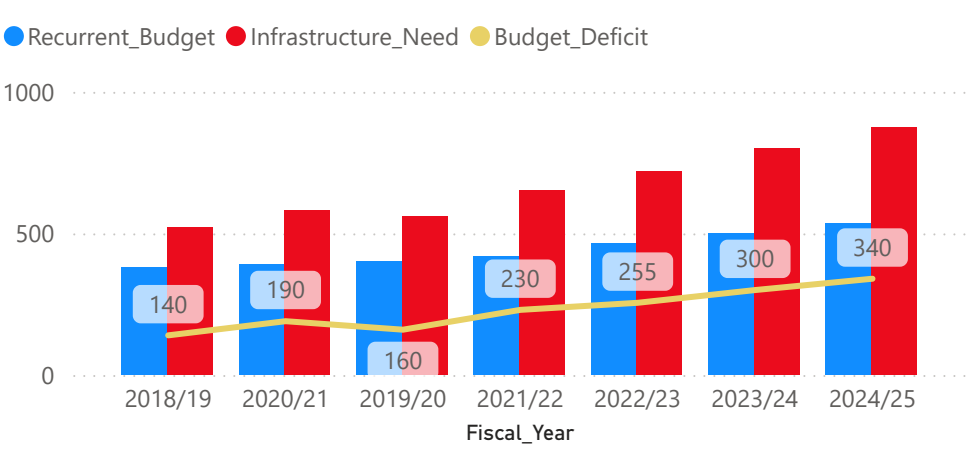

Quarterly Revenue Performance

Actual collected vs target — Q1 2022 to Q4 2024

Budget vs Infrastructure Funding Gap

Recurrent budget vs infrastructure need — deficit growing from P140M to P340M

Infrastructure Projects Tracker

Cost, funding status & priority — 2024/25

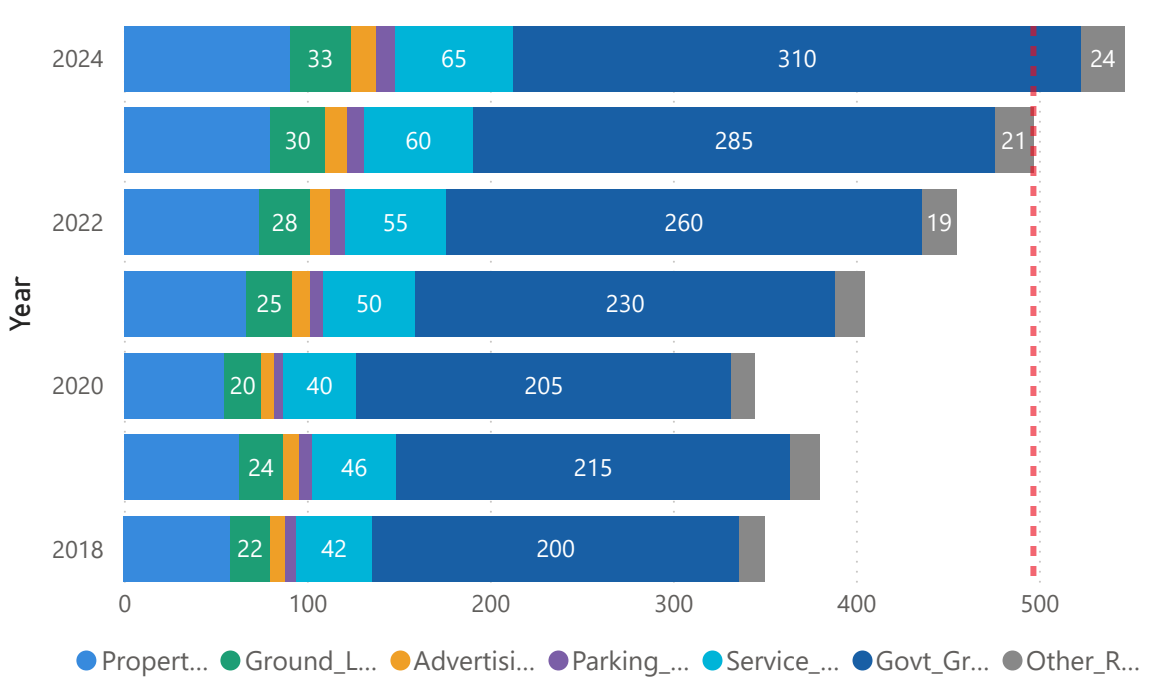

Project	Category	Priority_Level	Estimated_Cost	Funded	Funding_Gap	Status	Expected_Completion
IT Systems Modernisation	Technology	Medium	22	22	0	In Progress	2025
Street Lighting Upgrade	Utilities	Medium	45	45	0	Completed	2024
CBD Pedestrian Walkways	Urban Development	Medium	28	15	13	In Progress	2025
Public Markets Renovation	Trade	Medium	38	20	18	In Progress	2025
Waste Management Fleet	Environment	High	62	30	32	Planning	2026
Fire Station Equipment	Safety	High	41	0	41	Pending Funding	2026
Stormwater Management	Drainage	High	95	42	53	Planning	2026
Water Network Extension	Utilities	High	155	80	75	Planning	2027
Affordable Housing Units	Housing	High	210	95	115	Planning	2028
Road Maintenance Programme	Roads	High	320	180	140	In Progress	2025
Total			1016	529	487		

- **P487M total funding gap** across 10 projects
- **Fire Station Equipment** — P41M with ZERO funding — highest risk
- **Affordable Housing** — biggest single gap at P115M
- **Roads** — P140M gap while already in progress — risk of stalling.

GCC Revenue Streams by Source

Annual own-source vs grant revenue breakdown — BWP Millions 2018 to 2024

- Revenue collection is **92.53%** of target — performing well quarterly.
- But there is a **P121M revenue gap** to close.
- Infrastructure need is **outpacing the budget every single year**.
- Government grants account for approximately **57% of GCC total revenue**. Growing own - source revenue streams — particularly property rates, ground leases and service levies — is critical for long-term financial sustainability.

⚠ Note: Budget and infrastructure figures are estimates based on publicly available GCC reports. Data is intended for portfolio demonstration purposes.
